Welcome to the System Web

This is where Foswiki keeps system documentation, including documentation that is included with optional extensions.

For most people, the System web is read-only; even administrators should not need to modify any of the topics here, though you may want to add your own topics - for example, to answer frequently asked questions from your users.

This site is running Foswiki version **Foswiki-1.1.3, Sat, 16 Apr 2011, build 11475**, Plugin API version **2.1**

Tip of the Day

Comment box with CommentPlugin

The CommentPlugin allows users to quickly post comments to a page without an edit/preview/save cycle ...
